### Answers Key Review Reinforce Earth

reinforced concrete, concrete in which steel is embedded in such a manner that the two materials act together in resisting forces. The reinforcing steel—rods, bars, or mesh—absorbs the tensile, shear, and sometimes the compressive stresses in a concrete structure. Plain concrete does not easily withstand tensile and shear stresses caused by wind, earthquakes, vibrations, and other forces ...

The emergence of autobiography. There are but few and scattered examples of autobiographical literature in antiquity and the Middle Ages. In the 2nd century bce the Chinese classical historian Sima Qian included a brief account of himself in the Shiji ("Historical Records"). It may be stretching a point to include, from the 1st century bce, the letters of Cicero (or, in the early Christian ...

Loved the questions prior to the start of the chapters; I often used them for class discussions and prompts. Good review of important aspects of each chapter. Good homework assignment ideas. Modularity rating: 4 I mostly covered the chapters in order. Some I put more emphasis on; others I slid through speedily.
