First to diagnose my transmission. The local CAT dealer let me talk to their senior techs but they were going by memory and could not locate a manual or technical info on their computer. They said to pull the top plate off the transmission and find two 1/8" pipe thread fittings. One marked P1 and one marked P2.

The service manual has references to the D-3 as well as the 931 in almost all areas. Some parts are no longer available from Cat as they are discontinued. Example is the pinion gear in the final drive. The original changes up to a different gear and the newer gear is not compatible with the bull gear.
