When Cultures and Computers Collide: Rethinking Computer ...

Corresponding Author. Associate Professor in the Department of Communication at Wake Forest University, Winston-Salem, NC. His research focuses on exploring the ways in which new technologies have transformed the concepts of community, voice, space and time in contemporary society.

From Cyber Space to Cybernetic Space: Rethinking the ...

Technical teams must be able to facilitate decision making at the leadership level, regardless of the topic, cyber or otherwise. The more that technical teams understand the language and drivers of decision making within the organization, the more efficiently and effectively they can provide the assessments and

recommendations that result in sound decisions by leadership.
