The V EB rating isn't usually a factor in choosing a substitute transistor. V CB is always equal to or greater than V CE and you can use either of these maximum voltages to compare transistors. Choose a substitute transistor with a breakdown voltage rating at least as high as the original. MAXIMUM CURRENT

Transistor Substitution - BustedGear.com

Is there anything available to see if a particular transistor can be replaced with a different one . There are books galore on this but surely someone knows of a site that has them listed and searchable My query is a simple one I have no 2N5551 transistors on hand and I want to see if one in my box will do the job.

Transistor Substitution Manual/chart/database ...

File Type PDF Direct Transistor Substitution Handbook

Step by step instructions: Choose a transistor of the same polarity: The first major selection criterion is whether the transistor is PNP or NPN. Select a replacement transistor of the same material: Most transistors are either silicon or germanium. As bias voltages and other features are different it is necessary to select a replacement transistor with the same material.
