Model airplane engine sizes. All glow plug rc model aero engines, whether 2-stroke or 4-stroke, are expressed as a certain size. This size refers to the engine's capacity in terms of 1/100th of a cubic inch but is usually expressed as just the number eg a .40cu.in. engine would be referred to as a 40 and a .61cu.in. engine would be called a 61. It's also worth noting that the airplane itself ...
