individual's experience in the hospital, in recovery and throughout their life. In public health, we want to improve the long-term quality of the lives of transgender, transsexual and gender non-conforming people. We are invested in a healthy community. We also know that some people regret that they took hormones and/or had surgery.

Guidelines for Psychosocial Assessments for Sexual Reassignment Surgery ...

Before psychological interventions can be recommended, it is important to evaluate the helpfulness of these interventions in this population. To our knowledge, the role of psychological interventions in women exposed to IPV has never been systematically assessed to the level of a Cochrane review (Feder 2009; Tirado-Munez 2010). This review ...

Hormones, surgery, regret: I was a transgender woman for 8 years . My name is Walt Heyer and in April of 1983 I had gender reassignment surgery. At first I was giddy for the fresh start. But hormones and sex change genital surgery couldn't solve the underlying issues driving my gender dysphoria. I detransitioned more than 25 years ago.

Sex Change Regret | For those who want to return back

The second is that it can lead to grim psychological outcomes. The transgendered suffer a disorder of "assumption" like those in other disorders familiar to psychiatrists.

Paul McHugh: Transgender Surgery Isn't the Solution - WSJ

A large body of research has documented the influence of traditional media formats (e.g. television programs, adverts) on young women's consideration of cosmetic surgery. However, less is known about how newer forms of media such as social networking sites impact desire for cosmetic surgery. The present study aimed to examine whether exposure to images depicting facial cosmetic enhancements ...
